RGB CONTROLLER MODULE

CT-308 RGB LED Controller

The CT-308 LED RGB Controller can be used to drive RGB FlexLED SMT in conjunction with a suitable 12/24v dc power supply. The CT-308 LED Controller will drive up to 30m of RGB FlexLED SMT.

Specifications

Voltage	12/24 V dc
Connections	Screw Terminal
Ambient Temperature	-20 to +50 Degrees Centigrade
Output	3 x 5 Amp
Control Interface	6 Button unit
Mounting	Surface
Dimensions	211mm x 40mm x 30mm
