ColourStrip

ColourStrip

ColourStrip is a versatile PCB mounted RGB colour change strip. Each LED has 3 Dies, one red, one green, and one blue to give a uniform distribution of light. This product can be used with our range of drivers to give Manual, Automatic preset sequence or DMX controlled from the main sound/light system.

Specifications

LED Type	Surface Mount RGB
Power requirements	12 v dc, 400mA, / Strip
Dimensions	Length - 570mm, Width – 8mm
LED's / Strip	30
Cutting interval	56mm
Finnish	White solder resist
Ambient Temperature	-20 to +85 Degrees Centigrade
Humidity	95% Non condensing
LED Life	100,000 hours
