INTELLIGENT LED CONTROLLER

Intelligent LED Controller

The Intelligent LED Controller can be used to drive Intelligent FlexLED SMT in conjunction with a suitable 12v dc power supply. The Intelligent LED Controller will drive up to 200m of Intelligent FlexLED SMT with a suitable 12V DC power supply.

Specifications

Voltage	12 V dc
Connections	Screw Terminal
Ambient Temperature	-20 to +50 Degrees Centigrade
Output	2 x 10 Amp
Control Interface	6 Button unit
Mounting	Surface
Dimensions	211mm x 41mm x 30mm
