## Lighting

### LightBar20

**RGB** or Single Colour LED Diffused Strip

The LightBar20 is a 20mm wide aluminium extrusion with diffused semi circular cover containing low power RGB or single colour LED strip. This strip should be used in conjunction with a suitable 12v dc power supply, such as the SDL 150, or if RGB colour change is required the SDL ColourDriver & power supply.

### Specifications

Section Length	Up to 2 Metres
